JAKARTA QUICK FAXX:

- Indonesia is made up of 17,508 islands.
- Jakarta is the capital and largest city in Indonesia, it is located on the island of Java.
- *Sepak Takraw* is the most popular sport in Indonesia, it's like a wild game of volleyball played with feet instead of hands!

PRAY WITH US THAT:

- 1) Kids stay in school and away from hard and dangerous labor. (More than 40% of kids never make it to middle school).
- 2) God protects Christians -- opposition and persecution are growing.
- 3) Gospel broadcasters are blessed and protected as they seek to share Christ in spiritually dark places.
